

Dear All,

STATEMENT OF INTENT TO BE THE FINANCIAL CONTROLLER OF ISOC GHANA CHAPTER

I am grateful for the opportunity to be eligible to participate in the Internet Society Ghana Chapter Elections 2017.

Being a part of the Ghana Chapter has opened my eyes to the impact citizens can have in contributing to policy as well as policy changes. Our periodic meetings provided insight into various topics of interest to the internet community and Ghana in particular.

My interest in being the financial controller in the Ghana Chapter of the Internet Society stems from years of experience in similar capacities and I believe that knowledge gained over the years will help me better manage the financial resources of the chapter. Some of the proactive steps I will be taking will be to better resource the chapter through enforcing prompt payment of dues by members and also push for the use of electronic means in paying of dues.

Furthermore I will ensure diligent use of the chapter's resources to ensure all members benefit equally.

With these brief look into some of the things I will be pursuing I hope I will be given the opportunity to serve this noble society.

Thank you.

PATRICIA ADAFIENU
